Introduction

The series in this archive have been arranged as they were received from the Office of the Registrar – hence some overlapping. Although the series may loosely match with the Registrars' terms in office, the terms in office should not be used as a guide when looking for information in this archive. The dates in the list of contents above are only approximate and because the series overlap, it would be best to conduct a search in other series as well.

From 1995 the incumbents served as both Registrar and Assistant Vice-Chancellor. The combined position of Assistant Vice-Chancellor (Support Services) and Registrar was disestablished in May 2000 and reverted to being called Registrar when the position was filled by Adrienne Cleland.

In October 2008 the title of Registrar was changed to Assistant Vice-Chancellor and Registrar.
